About Us

Medicare Enrollment & Eligibility Solutions

GPS specializes in providing comprehensive end-to-end Medicare Part D Enrollment Services and Solutions.

GPS is a privately-held company headquartered in St. Louis, Missouri. GPS specializes in providing comprehensive end-to-end Medicare Part D enrollment services and solutions. Our staff possesses in-depth knowledge of the regulations and sub-regulatory guidance that have been established by the Centers for Medicare and Medicaid Services (CMS). Our Medicare Part D expertise has allowed us to develop a comprehensive suite of administration tools that provide clients with an end-to-end solution that ensures full compliance with Medicare requirements.

GPS's management team and staff have extensive experience in all aspects of pharmacy benefits with backgrounds in PBM operations, Medicare D operations, managed care, and health and welfare consulting. GPS has a proven track record of delivering successful results to clients of all types which include some of the largest sponsors of PBM services and Medicare Part D programs in the country. GPS has extensive experience working with clients across the public, private, profit and non-profit business sectors that include, but are not limited to, corporate plan sponsors, Taft-Hartley plans, managed care organizations, health care systems, Prescription Drug Plans (PDP's), Medicare Advantage Plans (MA-PD's), brokers and consultants, and governmental agencies and subdivisions.

GPS has a proven enrollment and eligibility solutions for the Medicare Group, Medicare Individual and Commercial Group markets which supported 700,000+ members. The GPS enrollment administration system has proven to be an invaluable tool for supporting internal, third-party and CMS directed audits. GPS has successfully completed such audits and the enrollment administration tool has served to simplify the audit process and demonstrate compliance with CMS requirements. These value-added benefits derived from using the GPS enrollment administration system significantly reduces the administrative burden and expense associated with an audit of any type.

GPS has capitalized on proprietary Healthcare Information Technology (HIT) and seasoned Medicare Subject Matter Experts to establish itself as one of the market leaders in Medicare Part D administration and support.

GPS Vision Statement

To develop customized solutions for the Medicare Part D marketplace that improve service levels for the client and support reduced system processing costs to improve our client's bottom line, reduce premiums and/or enhance services to help the client to gain market share.

GPS Mission

To be an innovative Medicare Part D systems partner by providing superior systems and services for our clients and their members while helping to reduce systems costs through creative solutions.
